I bought a mini rice cooker lately, although I have slow cooker, rice cooker and some other types of cookers, I still decided to buy this mini rice cooker, reason is to cook baby porridge in faster and easier way. I had tried to use slow cooker to cook porridge, it took about 3 hours to get ready.

Product description: 3 layer cooker come with timer, can cook rice, porridge and baby porridge. The timer function is very useful as we can set it to start cook at preferable time.

It is a very nice and useful product. I bought it from my colleague, who bought it from AEON, and it is very good. I will use it to cook my food.
